

Carta de rematrícula **NEW W10**

**Hello, Wizard Student!
Welcome to your New W10!**

We are flying high because you have achieved a new stage on your way to becoming a highly skilled English student at **Wizard by Pearson**! From now on, our efforts are to give you even more tools and opportunities to enhance your abilities to communicate in English.

Throughout the batches on your **New W10**, you will have the chance to apply all the skills you have acquired studying at Wizard so far to new situations and environments introduced in several authentic texts, audio records, and videos. All those materials are displayed in different sections and features like Real Life, Pinpoint, Realia, and There and Around.

Talking of it, the four-lesson-long exercise "There and Around" will give you the opportunity to get in touch with various text genres by bringing through streaming-like videos enough relevant information that will allow and lead you to practice on your own ideas and works.

We wish to provide you with as many moments of language use as possible during the **New W10**. It will allow you, at the end of the book, to be able to perform up to level B2+ (CERF) or 75 points (GSE) on international assessments, such as PEIC, Versant, Benchmark, and others.

The whole **Wizard by Pearson** Team hopes you have a blast while you study the updated, complete, and diverse New W10! The last steps of your journey are ahead of you! Do not miss any single chance to learn new things and succeed. We are proudly on your side! Have a wonderful time with your **New W10**!
